PLenty of space. PLenty of potential. PLenty of ways to get there.

Ballymoney has always been a place of motion and making—from railway lines and linen looms to the roar of road racing legends. But beyond the engines and industry, it's a town with solid roots and a grounded rhythm—where life moves forward without rushing past.

Its streets were shaped by craftspeople, traders and growers; its markets still echo with local voices. The Museum at Town Hall tells the story of the Dunlop brothers and the town's racing legacy, while the weekly market and nearby trails keep the pace balanced between bustle and calm.

At Foxleigh Meadow, you're close to all of it. On one side, the town centre—walkable, welcoming, and full of everyday essentials. On the other, wide skies and countryside. With 3-bedroom homes, this is a place that works for first-time buyers, growing families or anyone looking for more space and better living.

More room. More freedom. More ways to live well.

For bright futures

Foxleigh Meadow is surrounded by schools that families trust—nurseries that nurture, primaries with heart, and strong secondaries close to home. Whether it's first friendships or future plans, this is a place where learning feels supported, local and full of possibility.

Designed Efficient

The right choices for you and the planet.

Timber frame construction

Timber frame homes are faster to build-often wind and watertight within two days. High-performance insulation contributes to reducing energy bills by up to 50%. As a renewable material, timber uses 20% less energy in production, with every tree harvested replaced, making it one of the most sustainable construction methods.

High quality windows & doors

Windows and doors are sustainably made by Baskil Window Systems using wind and biomass energy, with strong recycling and water treatment in place. Double-glazed uPVC windows combine style and performance, while composite entrance doors and hardwood frames offer modern comfort, energy efficiency, and a distinctive finish.

Smart Heating Control System

The Ember PS smart heating system offers convenient, cost-effective control with a free app for multiple users. Manage heating from your phone, at home or abroad. The WiFi-ready RF thermostat communicates with your boiler to maintain ideal temperatures, with features like boost, scheduling, holiday mode, and multi-home control.

Thermally efficient insulation

High-performance specification with excellent U-values helps retain heat, reduce emissions, and contributes to lower energy bills. Glass mineral wool insulation in timber walls minimises air movement, cuts heat loss, and absorbs sound. A breathable membrane protects the external walls, insulated ground floor and roof exceeds building regulations-delivering comfort, efficiency, and long-term savings.

Green Mortgages

Green mortgages offer incentives-such as lower interest rates or cashback-for buying energy-efficient new homes. They typically require an EPC rating of A or B, which our homes meet. Benefits include reduced borrowing costs due to lower energy use, aligning with government efforts to promote sustainable, low-carbon housing.

Aspirational new homes, thoughtfully delivered by Hagan.

Every innovative, forward-thinking Foxleigh Meadow home is designed by our in-house architects and creative team. For 37 years, Hagan has been making high-quality, competitively priced homes and building thriving communities.
