Additional information

In accordance with the European Performance of Buildings Directive, all property being marketed For Sale or To Rent must have an Energy Performance Certificate (EPC). The rating establishes the efficiency of a property and what steps could be undertaken to improve its performance in an effort to reduce energy consumption and associated carbon dioxide emissions. There is no 'pass' or 'fail' level.

An EPC currently has a 'life' of 10 years and becomes part of the documents associated with that property. It can be transferred on completion of sale to the new owner(s) and would normally only be superseded by a new assessment after energy saving improvements have been carried out.

A copy of the EPC and Recommendation Report must be available to any interested party. The full Report can be viewed via our web site rodgersandbrowne.co.uk.
